Karan Gander

As a passionate and motivated web developer, I have gained valuable experience with the MERN stack through personal projects and coursework. My proficiency in JavaScript, React, Node.js, Express, and MongoDB enables me to develop elegant and efficient solutions. I am a detail-oriented problem solver who thrives in collaborative environments. Eager to continue learning and growing as a developer, I am excited to contribute to impactful projects that make a difference in people's lives.

Work Experience

Full-Stack Intern

Feb 2024 - May 2024
Developed a live Multi-Level Marketing (MLM) website during my internship using the MERN stack (MongoDB, Express.js, React, Node.js).

- User Management: Implemented user registration, authentication, and profile management.
- Network Visualization: Developed features for visualizing the MLM network structure and hierarchy.
- Dashboard: Created an intuitive dashboard for users to track their performance and earnings
- RESTful API: Designed and implemented RESTful APIs for efficient data handling and interactions.
- Responsive UI: Ensured a seamless user experience across different devices with a responsive design.

Projects

Airbnb Clone

Developed a full-stack web application that replicates key features of Airbnb, using the MERN stack (MongoDB, Express.js, React, Node.js).

- User Authentication: Implemented secure user authentication and authorization using Passport JS.
- Responsive Design: Ensured a seamless user experience across devices with a responsive design.
- RESTful API: Designed and implemented RESTful APIs for efficient data handling and interactions.

Easy Notes

Developed a notes provider platform for students using the MERN stack.

- User Authentication: Implemented secure user authentication and authorization using JWT.
- Responsive Design: Ensured a seamless user experience across devices with a responsive design.
- RESTful API: Designed and implemented RESTful APIs for efficient data handling and interactions.
- Enabled students to download class notes and access last year's papers easily.
- Implemented features for efficient note organization and retrieval
